

Crucible Lifter "Vario-Lift"

For safe installation of new crucibles and removal of used crucibles

The "Vario-Lift" grabs the crucible from inside and thus it is useable even in applications with minimum operating space.

Through its adjustable arms, the "Vario-Lift" is able to lift crucibles with a wide range of diameters. This guarantees high flexibility in daily foundry use.

For lifting new crucibles, "Vario-Lift" is delivered with unique slip resistant brackets. The permanently affixed surface coating of the brackets guarantees highest level of safety and a best practice in daily use.

For lifting used crucibles the "Vario-Lift" will be delivered with its anti-slip steel brackets.

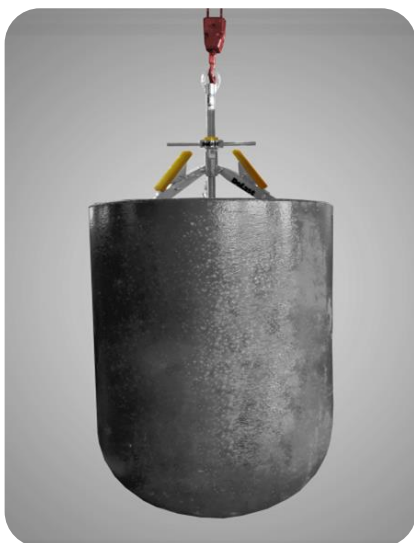

"Vario-Lift" is able to lift crucibles up to 900kg (1984lb) with an inner diameter from 400mm (15,75") up to a maximum of 1180mm (46,45").

Attention: Standing under suspended load is forbidden!

The "Vario-Lift" is available in two different sizes

Size	Item-number	Inner diameter in mm from	Inner diameter in mm to	max. lifting capacity in kg
Size 1	1800000269	ø 400 (15,75")	ø 740 (29,13")	600 (1322lb)
Size 2	1800000270	ø 690 (23,62")	ø 1180 (46,45")	900 (1984lb)

Advantages:

- Easy to use, highest flexibility
- Safe grip due to defined torque
- Tested and approved by our customers
- Usable in constricted conditions
- Usable for new and used crucibles
- CE-Certification
