ECONOMIC SCENARIO AND BUSINESS OUTLOOK:

In the coming years, we expect the robust growth in your company's end markets within India to continue at their recent pace. Relevant details about the Indian foundry industry which represents the largest end market segment for your company is provided in the next section. We expect continued strength in precious metals prices and continued investments in infrastructure spending to continue to drive growth in our Indian business in the coming years.

Our export markets present a softer outlook, with geopolitical conflicts and continued uncertainty around trade isolationism and tariffs continuing to depress market demand for our products in the immediate years. The precious metals refining segment continues to have a much better outlook with respect to end-market demand.

The lithium ion battery supply markets are also currently seeing muted growth as EV subsidies are rolled back in western countries. However, we expect this market to continue to grow in the near term, even if at lower rates than in the recent past.

INDIAN FOUNDRY INDUSTRY INSIGHT:

The Indian foundry industry is a significant contributor to the country's manufacturing sector. It supports various industries including automotive, aerospace, and construction. It is one of the largest foundry sectors globally, producing a wide range of castings in materials like iron, steel, and non-ferrous alloys.

The industry is characterized by a fragmented market structure with diverse players, including large conglomerates, specialized companies, and small to medium-sized enterprises. Indian

foundries produce over 10 million tons of castings annually, representing about 10% of global production.

The sector generates considerable direct and indirect employment opportunities. However, it encounters challenges including a shortage of skilled workforce, power supply problems, and environmental concerns.

The sector is expected to grow at a CAGR of 10% during the next five-year period (2024-2029). This growth is fuelled by infrastructure development, the automotive industry, and the “Make in India” initiative.

Your Company is dedicated to delivering exceptional value through our products and technical services to maintain ‘Morgan’ as the preferred supplier in the non-ferrous metals industry. We will continue focusing on providing value-added services for the next generation of products and processes.

NEW PROJECT/EXPANSION

Strategic Projects – 2024 Highlights

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2025 and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. We have determined that there are no key audit matters to communicate in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

- The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board report and Management Discussion and Analysis including its annexures but does not include the financial statements and our auditor's report thereon.

- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND BOARD OF DIRECTORS FOR THE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors is also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee

that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Notes to financial statements

FOR THE YEAR ENDED MARCH 31, 2025

The average credit period on sales of goods is 45 - 60 days. Interest is charged below 30 days @12% and above 30 days @15% on overdue receivables from dealer, however no interest is charged on outstanding trade receivables (Other than dealer). The Company always measures the loss allowance for trade receivables at an amount equal to lifetime expected credit loss. The expected credit losses on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate, and an assessment of both the current as well as the forecast direction of conditions at the reporting date. Outstanding customer receivables are reviewed periodically. Provision is made based on expected credit loss method or specific identification method.

The Company writes off a trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or when the trade receivables are over 180 days past due, whichever occurs earlier. None of the trade receivables are subject to enforcement activities.

During the earlier years the Company has applied for Advance Pricing Agreement (APA) before the Central Board of Direct Tax (CBDT) and Government of India for International Inter-company related party transactions with Associated Enterprises (AE). The Company has entered into in APA agreement with CBDT dated 18 August 2021 for 5 years ended 31 March 2021.

41. GOODWILL

Following is the summary of changes in carrying amount of goodwill:

Particulars	(₹ in Lakhs)	
	Year Ended 31-Mar-2025	Year Ended 31-Mar-2024
Balance at the beginning of the year	137.81	137.81
Impairment	-	-
Balance at the end of the year	137.81	137.81

The Company tests goodwill for impairment at least annually, or more frequently if events or changes in circumstances indicate that it might be impaired. The Company has identified a single cash generating unit ("CGU") based on the business. The recoverable amount of CGU is determined based on higher of value-in-use and fair value less cost to sell. The recoverable value was determined by value in use in cases where there is no basis for making a reliable estimate of the price at which an orderly transaction to sell the asset would take place between market participants at the measurement date under current market conditions. In determining the value in use, cash flow projections from financial budgets approved by senior management have been considered.

Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long-term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections are considered for next 5 years and consider past experience and represent management's best estimate about future developments. Cash flows beyond the five-year period are extrapolated using a 2% growth rate. The pre-tax discount rate applied to cash flow projections for impairment testing during the current year is 12%. An analysis of the sensitivity of the computation of recoverable amount to a change in key parameters, based on reasonable assumptions, did not identify any probable scenario in which the recoverable amount of the CGU would decrease below its carrying amount other than the amount.

42. The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post-employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. However, the date on which the Code will come into effect has not been notified and the rules are yet to be framed.
